

Stem Cell Differentiation Protocol Schema

Synchronized stem cell cycle transit in group
culture: TPO, FLT-3L, steel factor

2 Weeks Differentiation Culture: G-CSF, GM-CSF, steel

FIG. 1

Lin-Rho^{low}Ho^{low} in TPO, FLT-3L, steel factor:
³H Thymidine Uptake

FIG. 2

Proliferative Granulocyte Differentiation Through Cycle

FIG. 3

Non-proliferative Granulocyte Differentiation Through Cycle

FIG. 4

Megakaryocyte Differentiation Through Cycle

FIG. 5

HPP-CFC through G₁

FIG. 6
